

Model CountStar CHAMP

The undisputed No.1 card counting machine

The CountStar CHAMP

The undisputed no.1 card counting machine for regular and most demanding types of cards. Count standard white core card types, coloured core, transparent and translucent cards, embossed, printed, blank, film wrapped cards in high or low sided card boxes. Superior digital image analysis software and programmable for new card types.

Features:

- On board counting program developer tools allow users to create new or modify count program parameters.
- Compensation of different card box bottom heights.
- Superior new digital imaging analysis software
- Optional upgrade packages to meet future count requirements
- Accurate counts of standard card types
- Ability to count through shrink-wrapped card box (shrink wrap must be tight and wrinkle free)
- Fast count speed of 1 sec per 500 cards count
- Contactless counting method using state of the art software analysis of digital imaging
- Count cards inside box. Eliminate time in card unloading and loading for count.
- Convenient and fast box count.
- Rugged machine design guarantees reliable long term performance in heavy duty work environment
- Very low power consumption

Technical Specifications:

Card format:	ID1 (54 x 86mm) landscape orientation
Card types:	Standard white core cards. Bright colour core cards. Embossed cards
Card thickness:	~0.6mm — 5.0 mm (~24mil to 200mil)
Max card box length:	465 mm
Display:	22 inch Touch Screen LCD display
Control Unit:	Fanless industrial PC / Win 7 Pro 64 bit
Count process:	Contactless count. Advance digital image analysis
Light source:	LED bar light source
Interface/Ports:	Build in 4 x USB ports / 1 x Ethernet port
Machine dimension:	69cmW x 56cmD x 53cmH x 44kg (exclude packing)
Power supply:	AC 100V ~ 230V, 50-60Hz / 130W low consumption
