

# MODEL MSCL 350 Mini Smart Card Line

- Chip Punching
- Chip Milling
- Chip Embedding

The ALL IN ONE  
mini smart card  
production machine.

MSCL 350 is a desktop Mini Smart Card Line for manufacturing of ISO smart/chip cards. It is a new way to produce smart/chip cards. The production lines are dedicated for manufacturing of small quantities with the possibilities to increase production to higher quantity as and when required. The MSCL 350 generates an output of about 350 smart/chip cards per hour. It also gives the flexibility to add separate individual unit(s) or module(s) to increase output to 500, 1000 or 2500 cards per hr.

#### MSCL 350 is made up of the following units

A manual feed chip punching machine with speed of 1500 punch models per hr – Model DEC-1500

A semi auto milling machine for making chip cavity at speed of 350 cards per hr – Model USI 400 Semi Auto Chip Milling

A semi auto hot-melt chip embedding/implanting machine to bond the chips to the card body – ENC-500 Semi Auto Embedding
