SPARKS Ink - The #1st choice screen inks for plastic card manufacturers

SPARKS Laminating Ink & Coatings

SPARKS metallic laminating inks are formulated for printing on pvc sheets. SPARKS Inks has strong adhesion and bonding properties during lamination and minimise de-lamination or peeling of card surface. It dries quickly with a brilliant sparkle and gloss.

Printing process: Silkscreen process.

For best results, we recommended #77~120T monofilament screen mesh depending on ink types/applications.

Each kilo gives estimated 3000 cards edge to edge printing one side based on screen mesh of #77

Drying time: Air dry 30-60 minutes depending on stock & printing area conditions.

SPARKS Gold Series
